Detecting Parkinson's Disease using vocal measurement and spiral hand drawing

Questionnaire Result

Do you have any slow movement in your limbs, face, walking, or overall body?	no
Do you have a tremor, or shaking, in one of your limbs, most commonly your hand or fingers?	no
Do you have muscle stiffness that is both unpleasant and limits your range of motion?	no
Do you find yourself losing your sense of balance?	no
Have you noticed a lack of automatic movements such as blinking, smiling, or swinging your arms as you walk?	no
Do you have a problem with your sense of smell?	no
Do you have difficulties sleeping and find yourself thrashing around in bed or acting out nightmares while you're deeply asleep?	no
Have others commented on how soft your voice is or how hoarse you sound?	no
Have you ever been told that you have a serious, depressed, or enraged expression on your face, even when you are not upset?	no
Do you find yourself feeling dizzy when you get out of a seat?	no

Findings

0% has been detected from the questionnaire
